Pune, India

PROFESSIONAL SUMMARY

Engineering leader with 26+ years of progressive experience — from C/C++ Networking engineer to Director of Engineering — driving high-impact software delivery across AI/GenAI, Cloud-native platforms, and distributed systems. Expert at building and scaling engineering organizations (50+ engineers), architecting GenAI/RAG products, modernizing cloud infrastructure on AWS/Azure/GCP, and cultivating delivery-focused engineering cultures. Deep technical roots in networking protocols, security systems, and low-level systems programming.

PROFESSIONAL EXPERIENCE

Proxima Systems LLP

2020 – Present

Director of Engineering Pune, India

- Lead 50+ engineers across multiple locations; built and scaled engineering pods for AI, Cloud, and product delivery teams
- Architected and delivered **Provento.AI** — enterprise GenAI/RAG platform reducing knowledge retrieval time by 70%, serving 5+ enterprise clients with Slack/MS Teams/WhatsApp integrations
- Engineering Manager for the **Linux Foundation LFX Platform** — cloud-native dashboard products on AWS Lambda, Angular, and Go; led 20+ developers across India, Africa, Europe & USA
- Built OKR-driven delivery culture, engineering leadership bench, and internal hackathon programs driving innovation

GenAI / RAG AWS Kubernetes LLMs Python Angular Go

Calsoft India Pvt Ltd

2016 – 2019

Senior Engineering Manager Pune, India

- Managed multiple engineering teams of 20–30 engineers across varied technology stacks and global delivery
- Led migration to Kubernetes and cloud platforms (AWS / Azure / GCP); improved deployment frequency by 3x
- Mentored Technical Managers; institutionalized Agile practices, improving delivery velocity and quality

AWS · Azure · GCP Kubernetes Agile Team Building

Persistent Systems Ltd

2006 – 2016

Technical Manager / Project Manager Pune, India

- Technical Manager for **ExaGrid Systems** storage de-duplication platform — built parallel Engineering team (Backend, Frontend, QA, Sustenance); delivered 2 major & 6 minor releases; certified backup applications (Arcserve, NetBackup, CommVault, Veeam)
- Delivered **Education Portal** for civil infrastructure company — from requirements and UX to phase-wise delivery on Node.js, ReactJS, and Azure; achieved 1M+ user interactions within first year
- Led Agile transformation across multiple teams; managed 15–25 engineers on distributed systems projects for global clients

C/C++ Java Node.js ReactJS Azure Storage Agile / Scrum

Arista Networks (FKA AirTight Networks)

2005 – 2006

Senior Software Engineer India

- Core developer for **SpectraGuard** — WiFi WIPS platform detecting rogue APs, MITM attacks, and policy violations across 802.11a/b/g networks in C/C++
- Engineered VLAN support, built AP/Client simulation stress-test tools, and implemented High Availability & fault tolerance features

C / C++ 802.11 Protocols WiFi Security Linux Kernel

EARLIER ROLES

HCL Technologies	Member of Technical Staff	SNMPv3 support for McData / Brocade SAN Switches & Directors (eOS / VxWorks); SNIA Certified Storage Networking	2004–2005
Inspiration Technologies	Member of Technical Staff	Developed Firewall on custom hardware; C/C++ network security development	2003–2004
ControlNet (India) Pvt Ltd	Software Developer	Key developer for FlameThrower NMS; TCP/IP stack & HTTP protocol; TCP Offload Engine chip porting	2000–2003

EDUCATION

M.S. Software Systems	2007 – 2009
Specialization: Networking	
Birla Institute of Technology & Science (BITS), Pilani	
Bachelor of Engineering — Computer Science & Engineering	1996 – 2000
Walchand College of Engineering, Sangli	

TECHNICAL SKILLS

Languages	C / C++, Python, JavaScript, React, Angular, Go	Cloud & Infra	AWS, Azure, GCP, Docker, Kubernetes, Serverless / Lambda
AI / GenAI	Generative AI, RAG, LLMs, LangChain, Vector DBs, OpenAI API	Networking	TCP/IP, WiFi / 802.11, SNMPv3, Distributed Systems, Microservices
Leadership	Engineering Strategy, OKRs, Agile / Scrum, Roadmapping, Hiring	Data & Storage	PostgreSQL, MongoDB, Supabase, Vector Stores, Storage Networks (SAN)

CERTIFICATIONS

SNIA Certified Storage Engineer · SNIA (2021)	Introduction to AI in the Data Center · NVIDIA (2023)
Project Management Professional · Persistent Systems (2022)	LFC191: Open Source Licensing Basics · Linux Foundation (2023)
LFD121: Developing Secure Software · Linux Foundation (2024)	

CONTRIBUTIONS & VOLUNTEERING

HACKATHON JUDGING	VOLUNTEERING
- Judge — Walchand College of Engineering Hackathon (2023–2026) · Evaluated AI & Cloud solutions from 50+ teams - Judge — Proxima Systems Internal Engineering Hackathon (2024) · Organized 48-hour company-wide innovation sprint	- Industry Advisory Board Member — Multiple Engineering Colleges; guiding CS curriculum for Cloud & AI alignment (2021–Present) - Volunteer — Door Step School · Digital literacy programs for underprivileged children (2022–Present)
SPEAKING & EVENTS	
- Speaker — "Deep Packet Inspection", Goa College of Engineering — STTP on Data Networks & Security (2016) - Attendee — Linux Foundation Member Summit, representing LFX Engineering for roadmap input (2023)
